Skills

- JavaScript | TypeScript | React | Next 13 | Node | Express | MongoDB | Redux | jQuery | PostgreSQL | Git
- Prisma | Salesforce | Jest | Unit Testing | OOP | Axios | Tailwind | Material UI | AB Testing | Adobe Target
- English | Polish | Ukrainian - *Native level*
- Spanish | Russian - *Professional working proficiency*

Projects

- **NomadDesk App** **Project Link** **Code**

Developed a comprehensive full-stack web application using Next.js 13, enabling global users to efficiently search and reserve coworking spaces around the world. The project featured a fully operational booking system, robust authorization mechanisms, and seamless CRUD operations, all meticulously implemented with TypeScrip and Node.
Created client-side routing using Next.js 13 App Router, enhancing the application's navigation and user experience. Integrated key components such as dynamic calendars and interactive maps to facilitate user interactions.
Implemented advanced querying logic, ensuring efficient loading of coworking listings. Leveraged MongoDB and Prisma databases to optimize data management and retrieval, thereby enriching the application's performance and functionality.

- **Admin Dashboard** **Project Link** **Code**

Developed an admin dashboard application, leveraging technologies such as React, Material UI, Nivo Charts, Formik, Yup, Full Calendar, and Data Grid. Implemented four distinct charts to present sales data. Augmented the application's functionality with data tables to showcase products and orders. Integrated a dedicated admin profile page, ensuring a seamless user experience and comprehensive administrative control.

- **AI Image Generator App** **Project Link** **Code**

Crafted a fully responsive application harnessing the capabilities of the OpenAI API: DALL-E, and ChaGPT to dynamically generate images in response to textual prompts.

Experience

Frontend & CRO Engineer	**Acronym Media**	*New York City, USA (Remote)*	**2022 - 2023**

- Crafted fully-responsive web applications, meticulously translating designs from Figma into robust markup, ensuring exceptional UX.
- Engineered test experiences in Adobe Target and InteractionStudio/Salesforce, tailored to national and international luxury sector clients.
- Implemented substantial improvements to enhance the UX of client landing pages, utilizing JavaScript, TypeScrip and DOM manipulation.
- Collaborated with cross-functional teams, including project managers, backend engineers, and designers.
- Redeveloped the frontend of the Analytics team's internal time tracking app, employing TypeScript, React and Material UI.
- Developed user experiences for A/B/n, multivariate, and personalization programs using Adobe Target and JavaScript.
- Optimized business logic for the main agency clients,including A/B, Auto-Targeting, and Multivariate Testing.
- Instituted rigorous testing procedures employing Jest and Mocha, guaranteeing the reliability and robustness of applications.

Frontend Web Developer	**Freelance**	*Remote*	**2021 - 2022**

- Built user-centric websites, employing cutting-edge technologies such as React, Next.js, JavaScript, TypeScript, and Node.js.
- Developed full-stack applications, harnessing the power of the MERN stack.
- Integrated third-party APIs seamlessly to enhance application functionality and feature sets, contributing to scalability and performance.
- Implemented rigorous testing protocols with precision and expertise, utilizing Jest to fortify application reliability and performance.
- Applied best practices in security by addressing common vulnerabilities in web apps, employing modern security measures.
- Executed the deployment of web apps, leveraging platforms such as Netlify and Heroku, ensuring accessibility and optimal performance.

Real Estate Broker	**Self Employed**	*Barcelona, Spain*	**2018 - 2020**

- Managed and closed sales of high-end residential properties in Barcelona.
- Coordinated and led showings, meetings and negotiations with clients on a daily basis.
- Conceptualized new marketing techniques for rental growth.
- Developed and maintained relationships with clients and property administrators.
- Created an extensive real estate content for properties advertising.
- Conceptualized new marketing techniques for rental growth.
